

# LESCO®

## CarbonPro™-G

### ELITE

Granular Microbial & Carbon  
Plant Health Nutrient Optimizer

### PRODUCT OVERVIEW

LESCO® CarbonPro™-G is a revolutionary nutrient optimizing system that harnesses the power of carbon, plant-microbe interactions and organic soil processes to maximize plant health and nutrition. Through field testing, LESCO CarbonPro-G measured 50x more effective than Humic 6%.

This product aids in seed establishment and increases root mass; it may be used during nutrient restrictions or blackout applications. LESCO CarbonPro-G remediates high saline soils and salt toxicity.

### FEATURES

- Maximizes turf recovery and mitigates effects from environmental and cultural stressors
- Enhances turf greening
- Increases nutrient uptake and utilization efficiency (improves return on current nutrient investment)
- Optimizes pH, salinity, and CEC
- Elite Sizes (~80 to 100 SGN)

### SUGGESTED USAGE

Greens grade, homogeneous granular formulation can be applied to golf courses, residential and commercial turf, athletic fields, and nurseries through a standard LESCO broadcast spreader without a specialized agitator.

### ENVIRONMENTAL TOLERANCE

Regardless of geography, this product may be used for better root systems that enhance tolerance against heat, cold, drought, and salt.

### BENEFITS

Reduced Water Requirements

Increased Nutrient Availability

Optimized Soil Health

#### ANALYSIS

- Non-Plant Food Ingredients  
Microbial Metabolites
- Humic Substances
- USDA Certified  
“BioPreferred” Biochar

#### FORMULATION

Biological Soil Amendment

#### MODE OF ACTION

Root Absorbed

#### RESTRICTED USE

No

#### PACKAGING INFORMATION

40 lb. bags  
50 bag pallets
